Deep Dive Peer Reviews

All SSELP schools have the opportunity to take part in a Deep Dive Programme working within a group of 2-3 schools. Leaders will visit two other schools and work alongside David Connor (external consultant) to review an area of school improvement. The school will also host a review in their own school.

Schools have found this experience very valuable in affirming school practice and moving forward with school development.

Please email SSELP to express interest in this programme which will take place January – July 2025.
